

Bishop McHugh Regional Catholic School

Grade Pre-K3 to Grade Pre-K4

Accelerated Learning with Summer Reading and Math!

Please continue to practice letter recognition as well as letter sounds. Have your child practice spelling and writing his/her name. They each will bring home a laminated name tag which we used in class to practice writing using a dry erase marker. The marker erases with a napkin for easy repetition.

Reading to your child every day is an activity they all love and it fosters a love of books, reading and the use of their imagination.

Number identity is also important along with counting. Your child has learned a few songs for counting which may help them practice during the summer.

Try starfall.com, abcya.com and storylineonline.net for some fun as well.
